

# Youth Psych Therapy

Country &  
Outback Health

***Therapeutic support for individuals (16+) to help them better understand and manage their feelings, emotional awareness, behaviours and coping skills.***

Our experienced Mental Health Clinicians are skilled in understanding human behaviour. People experiencing mental ill health often have difficulty controlling their thoughts, emotions and behaviour, our Mental Health Clinicians will work with you to grow your coping strategies, reduce stress and improve your wellbeing.

# Youth Psych Therapy

## Guidance for people experiencing:

**Overcome:** you might feel that you have so many competing responsibilities that there is no time to rest, too much to do and no light at the end of the tunnel.

**Sleep problems:** life is completely exhausting, getting out of bed is hard and you feel like you could sleep all day or the opposite, you can't sleep at all.

**Emotional outbursts:** one minute your ok but the next something has triggered a sudden and dramatic change in your mood- extreme anger, resent, fear or distress.

**Anxious or intrusive thoughts:** if you're feeling anxious or stressed most or all of the time you may need some support to manage your emotions.

**Hopelessness:** constant feelings of guilt or worthlessness can leave you feeling completely hopeless like you have no direction or reason for being here.

**Social withdrawal:** we all need downtime to rest but not ever wanting to socialise with friends or participate in activities which you once enjoyed can be a warning sign.

**Substance abuse:** using alcohol or drugs as a way of escaping everyday life can be a strong sign that your mental health is suffering.

To access this FREE service, a Mental Health Treatment Plan is required. Speak to your GP who will make a referral to Country & Outback Health on your behalf.

This service is also available for NDIS participants with Improved Daily Living funding in their Capacity Building Budget.
